Because of Health and Temperament problems are 50% Genetic and 50% environment. We would like for our customers that purchase a pup to take the time to read the following!

Proper Feeding Guidance

Please take the time to read the labels on the food bags, we recommend that to keep the pup on a Large Breed Puppy/adult food diet. As this are mastiff dogs and need the proper nutrition to develop their joints and bones properly for a healthier and longer life. Ensure that the food has meat(lamb, chicken) and it also contains Glucosamine/Chondroitin as a supplement, as this helps promote healthy joints and maximum flexibility for your dog. There are also Treats out there you may buy from any local pet store.

Socialization and Training

Buyers agree to Respect and honor the Cane Corso Breed by socializing and putting the puppy on a basic training class/obedience training class. Please keep in mind that this is a Dominant breed and needs to be trained as a puppy to ensure a well behaved, loving and caring adult dog. This is a Working Breed and loves to work and please the master. Socialization is a must. Buyer understands that the Corso needs a lot of personal attention and agrees to not isolate the dog in a kennel or crate for long periods of time. Doing so can cause behavioral problems.

PAPERWORK- A lot of buyers seem to think that because they have paid in full that they shall receive the paperwork for there dog-this is not true for a couple of reasons: The ICCF handles the registration of the dog not us, therefore we can not control whether or not it takes 1 week or ten weeks. I always send paperwork out after 2 weeks of litter birth and sometimes don't receive it until pups are 10-12 weeks. We strive for perfection and so should you-If you are looking to breed only the best should be breed, Thirdly-although we tell buyers that females can not be breed until at least the 3rd heat cycle [18 months usually] and males should wait a year before being studded no one does it. For whatever the reasons being- it was an accident, they were excited and couldn't wait, I thought I can make some extra money-It is all not good enough-and it is not excepted. We at Sapri Corso have to do our part to discourage that, so on that note Sapri holds the right to keep all papers on females until they are 18 months and twelve months on a male to ensure that they are not breed until that age

IN TIME- No one knows the future, but we can all try and plan it. If at any time in your life your situation changes so drastically that you can no longer take care of your pup- Sapri forbids you to give it to a animal shelter, rescue home or municipality that will put the animal to sleep. We want it and we will bring criminal charges against you if you do not give us the opportunity to help you with the pup.

REFERRALS- Any past customer of, Sapri Corso that recommends a future client that purchases a pup-will be sent a two hundred dollar check from Sapri Corso, as our way of saying thank you to our loyal past clients.

WE AT SAPRI CORSO FEEL LIFE IS VERY SIMPLE. WE BELIEVE VERY FIRMLY, THE MORE BRANCHES ON A TREE, THE STRONGER THE ROOTS. WE AT SAPRI HAVE MANY BRANCHES AND OUTSTANDING, STRONG, REPUTABLE ROOTS. COME BE A PART OF OUR TREE, IT IS FULL OF LIFE AND PROSPERITY.
